

ROR Trailer Products

Compatico Trailer System developed with Renault Trucks

The Right Combination

Ever since disc brakes began to make an impact in the European heavy truck and trailer markets, a gap has sometimes existed between the anticipated performance and the real-world results. Some fleets have experienced increased brake wear, brake failure, downtime and costs. They have abandoned the superior disc technology and returned to drum brakes in frustration.

But, at Renault Trucks and ROR, we realized that the core of the problem was rooted in a lack of integrated development. We believe that a comprehensive approach to truck and trailer axles and brakes is needed to deliver the clear advantages of disc brakes without the problems.

Acting on this, we have combined our resources in a revolutionary development program, and are now proud to announce the ROR Compatico trailer axle, brake, and suspension system designed specifically to work with Renault truck components.

Custom designed to work with Renault trucks, the new trailer axles, brakes and suspensions offer a complete package of components – including D-Elsa2 Disc Brakes – in a trouble free system backed by the service excellence and 24-hour availability of Renault Trucks' dealers.

More than a simple product breakthrough, the Compatico line offers a bold new approach to the tractor and trailer axle and brake compatibility equation, and a whole new level of quality and service. And, it shows the power of teamwork.

ROR Compatico Advantages

- Integrated tractor/trailer system.
- D-ELSA2 disc brakes.
 - Guided twin pistons for extended pad life.
 - Fully sealed sliding system.
- 1,450 Renault Truck dealers throughout Europe trained to service the ROR Compatico system.
 - Same warranty procedures as ROR which now includes a paperless web based warranty process via www.rorcure.com.
- 24 hours a day, 7 days a week breakdown and recovery service for Renault Premium and Magnum tractor owners with ROR Compatico-equipped semi-trailers.
- Fast availability of spare parts for both tractors and trailers from one reliable source, your Renault Trucks dealer.

Built for you

ArvinMeritor and Renault Trucks working together, have created a new trailer axle, brake and suspension system – the ROR Compatico – designed to enhance tractor-trailer compatibility to extend the life of braking systems and decrease downtime.

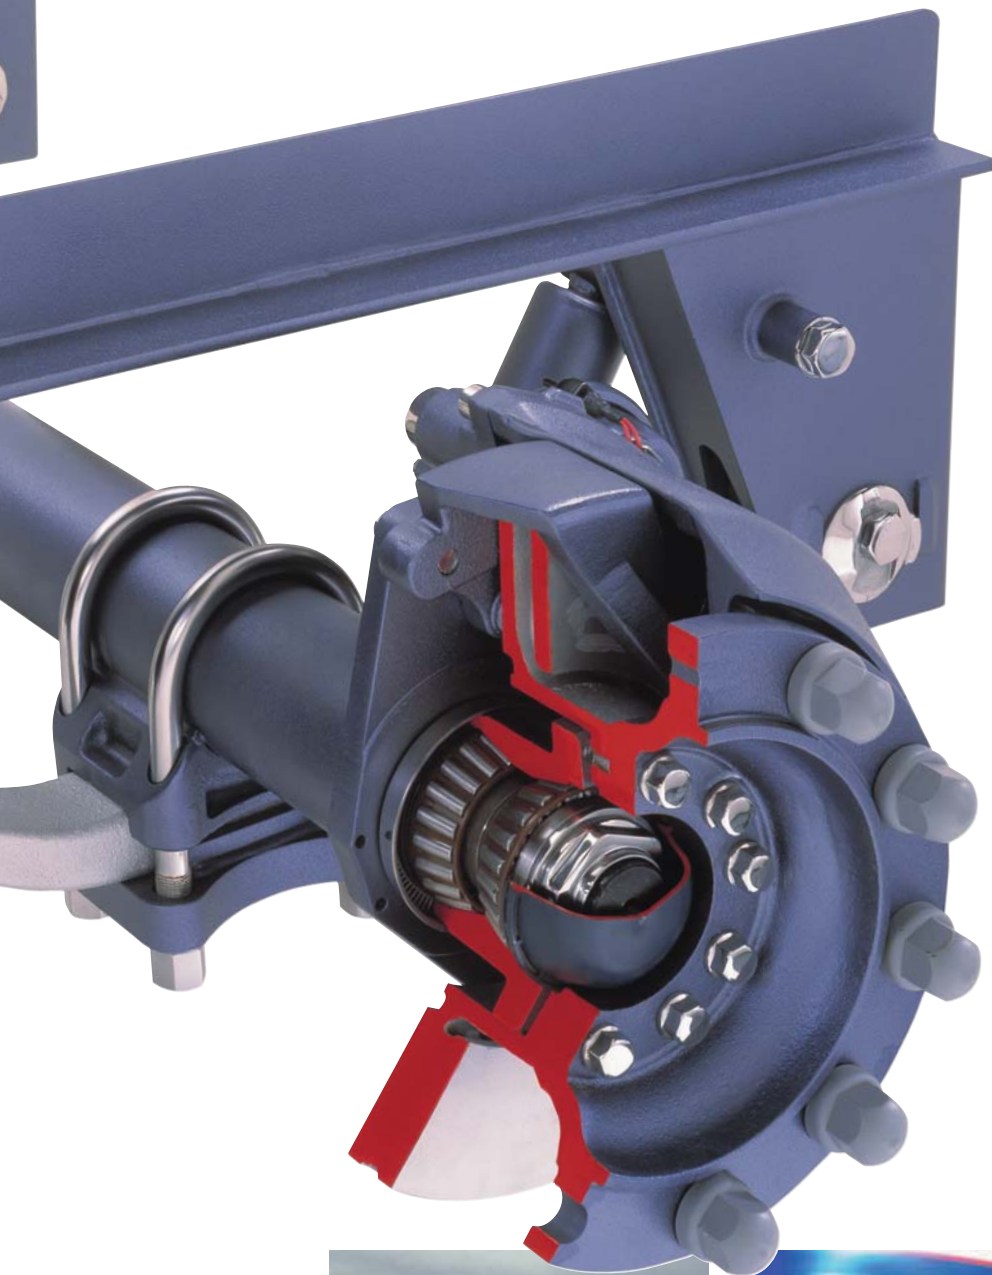

The fine-tuned system offers a unique design configuration that allows the tractor, trailer and its components to

work in unison to reduce premature disc brake and pad wear caused by incompatibility between the trailer and truck braking systems.

The ROR Compatico product has been engineered with many of the same components found on the successful Renault Premium and Magnum series products – and has been designed to fit your application. For all your long-distance transport requirements, this product will meet your needs perfectly.

And, in all models, you will get the quality of D-Elsa2 Disc Brakes – an integral part of the industry's best axle component package. You can count on the ROR Compatico trailer systems and Renault Trucks to deliver performance mile after mile, year after year.

Be sure to ask your supplier to give you the ROR Compatico advantage on your next trailer!

Support when and where you need it

The power of the Renault Trucks/ROR partnership goes beyond the creation of parts and integrated systems. Joint training on systems and close coordination of development efforts leads to an extremely high level of performance. It means that with ROR Compatico products, you will have the 24-hour, 365-days-per-year breakdown and recovery support you've come to count on from 1,450 Renault Trucks dealers throughout Europe, coupled with the full product and service excellence of ROR.

Wherever the road takes you, you can rest assured that we'll be there to help, if needed.

We've also developed an unprecedented service program with a range of menu-priced maintenance packages and contract maintenance services to keep your ROR Compatico-equipped trailers up and running. It's the best way to keep the modern technology of EBS working for you! Naturally, the new Compatico products and components carry the industry-standard warranty coverage you'd expect from Renault Trucks and ROR.
